Professional Summary

Innovative and detail-oriented Front-End Developer with 6+ years of experience in building responsive, user-centric web applications using **React**, **JavaScript**, **TypeScript**, **Node.js**, and **GraphQL**. Adept at collaborating with cross-functional teams, integrating multimedia content, and ensuring high-performance applications. Passionate about delivering intuitive user experiences while maintaining clean, scalable code. Experienced in Agile environments, version control, and continuous integration.

Core Competencies

- **Front-End Development:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, jQuery, AJAX
- **Back-End & APIs:** Node.js, Express.js, RESTful APIs, GraphQL, MongoDB
- **Testing & Debugging:** Jest, Cypress, Chrome DevTools
- **Tooling & Frameworks:** Git/GitHub, Webpack, Babel, CI/CD Pipelines
- **UX & Design:** Responsive Web Design, Multimedia Integration, Cross-Browser Compatibility
- **Languages:** English (native), French, Spanish, Portuguese, Italian, Mandarin, German

Professional Experience

Freelance Web Developer

Self-Employed – Remote / Atlanta, GA • April 2018 – Present

- Spearheaded the design, development, and deployment of custom web applications using **React**, **JavaScript**, and **Node.js**, resulting in a **30% increase in user engagement** for client platforms.
- Integrated **GraphQL** for efficient data fetching and optimized application performance, reducing load times by **40%**.
- Developed responsive user interfaces, ensuring cross-browser compatibility and accessibility compliance.
- Collaborated with designers and product managers to translate wireframes into functional, user-friendly web experiences.
- Managed version control using **Git/GitHub**, conducted code reviews, and ensured adherence to industry coding standards.

Multimedia Developer

RJ Pyles Designs – Hybrid / Atlanta, GA • January 2021 – December 2024

- Developed and maintained interactive, responsive websites using **HTML**, **CSS**, and **JavaScript**, enhancing UX across desktop and mobile platforms.
- Integrated multimedia content, including video, audio, and interactive graphics, increasing user engagement and site retention.
- Oversaw website updates, troubleshooting bugs, and optimizing performance to maintain high availability.
- Collaborated with cross-functional teams to ensure seamless alignment between design vision and technical execution.

Full-Stack Developer | Co-Founder

StackFX Creative – Remote / Atlanta, GA • 2023 – Present

- Led web development initiatives, delivering bespoke solutions tailored to client business objectives.
- Built and deployed **React** and **Node.js** applications, ensuring scalability, performance, and maintainability.
- Achieved a **30% increase in user retention** through targeted UX enhancements and performance optimizations.
- Implemented API integrations and third-party services to expand application functionality.

Education

Digital Film Academy

Code Immersive

– Computer Software Engineering/Full-Stack (MERN) Web Development

September 2022 – August 2023

Certifications

- **Responsive Web Design**, *freeCodeCamp – May 2024* (Credential ID: rypy-rwd)
- **Learn JavaScript Course**, *Codecademy – August 2023*
- **Learn CSS Course**, *Codecademy – July 2023*
- **Learn HTML Course**, *Codecademy – December 2018*

Projects & Achievements

- **Interactive Resume Website:** Built a cutting-edge React-based resume site with animated UI, scroll effects, and multi-language support.
- **Dreamscape Generator:** Developed an AI-powered 3D environment generator using **React Three Fiber**, **WebGL**, and **Framer Motion**.
- **Multilingual Phrasebook App:** Created a cross-platform phrasebook with **Material-UI**, **Text-to-Speech API**, and real-time language switching.
- **Task Manager App:** Built a productivity app with **Hermes Orange** branding, **React**, **TailwindCSS**, and **Redux** for state management.
